

SLPOWER NCF425 SERIES

425 W Single Output

Medical Grade - CF Rated*

Medical Data Center Telecom

protection and a 3.5 x 6 x 1.5 inch form factor.

Advanced Energy's SL Power NCF425 CF rated* medically approved AC-DC power supplies are available with a nominal main output of 12 V, 24 V or 48 V. NCF425 series power supplies provide up to 425 W of output power with air flow. All models have output overvoltage, short circuit and overload

AT A GLANCE

Total Power

425 W

Input Voltage

85 to 264 VAC

of Outputs

Single

SPECIAL FEATURES

- 5 kV Defibrillator Withstand
- Up to 425 W with Air Flow
- Up to 270 W Convection Cooled
- 3.5"W x 6"L x 1.5"H Size
- Universal Input 85 to 264 VAC
- Meets Class B Emissions Levels
- 7+ Years Electrolytic Capacitor Life
- Meets EN60601-1-2 4th Edition EMC
- Less than 10 µA Leakage Current
- Class I Input
- RoHS, REACH Compliant
- Includes 5 V Standby Output
- 3 Years Warranty

SAFETY

- IEC/UL/cUL/EN60601-1, Edition 3.2
- CF Rated*

- * The NCF Series models are suitable for CF Rated applications as they provide the below features:
- 1. Clearance and Creepage requirements between Primary and Ground for one MOPP. Primary and Secondary for two MOPP and Secondary and Ground for one MOPP.
- 2. Hi-pot tests between Primary and Ground, Primary and Secondary and Secondary and Ground.
- 3. Type CF Patient Leakage Current <10 μ A under Normal Condition and <50 μ A under Single Fault Condition

Note: As the NCF Series is classified as a component power supply, it cannot be declared an Applied Part, and therefore cannot be declared CF Rated. However, the NCF Series has been evaluated for and meets the requirements related for use in CF applications.

Notes:

- 1. Performance criteria are based on EN55024. According to the standards, performance criteria are decoded as following:
- A. Normal performance during and after the test
- B. Temporary degradation, self-recoverable
- C. Temporary degradation, operator intervention required to recover the operation
- D. Permanent damage
- 2. Class B Radiated Emissions requires application of external core on the output cabling, Wurth 74270096 or equivalent. Meets Class A without external core.

ORDERING INFORMATION

2	Output Voltage	Output Current (fan)¹	Output Power (fan)¹	Output Current (convection/ conduction)	Output Power (convection/ conduction)	Terminations	
Model Number ²						Input	Output
NCF425S12K	12 V	30.0 A	365 W	19.58 A	240 W	5 pin (pins 2, 4 removed), 0.156 Ctr Connector	10 pin Molex Type Connector
NCF425S24K	24 V	17.5 A	425 W	11.25 A	275 W		
NCF425S48K	48 V	8.75 A	425 W	5.63 A	275 W		

Note 1: 300 LFM airflow is required.

Note 2: Contact Advanced Energy for availability of other output voltages.

DERATING SPECIFICATIONS

UNIT PACKAGING REQUIREMENTS

Inserted Instructions	Instruction sheet to be provided with all units packaged in individual unit box if used.			
Individual Unit Packing	its can be packed in egg crate type cartons for production quantities. Individual product shipments include a dividual unit box.			
Master Carton Shipping Box	40 units per master carton. Unit packaged into carton must be protected such that it will sustain 1.4 m drop test onto hard surface. Only anti-static packing material may be used inside the box. Exterior box sealing tape is anti-static type.			
Individual Carton Packing Box (when used)	Individual carton is labelled with RoHS sticker and individual label showing unit serial number, bar code, manufacturing date, bar code, and manufacturing part number, bar code, country of origin.

ABOUT ADVANCED ENERGY

Advanced Energy (AE) has devoted more than four decades to perfecting power for its global customers. AE designs and manufactures highly engineered, precision power conversion, measurement and control solutions for mission-critical applications and processes.

Our products enable customer innovation in complex applications for a wide range of industries including semiconductor equipment, industrial, manufacturing, telecommunications, data center computing, and medical. With deep applications know-how and responsive service and support across the globe, we build collaborative partnerships to meet rapid technological developments, propel growth for our customers, and innovate the future of power.

PRECISION | POWER | PERFORMANCE | TRUST
