HTP-101A 'PISTOL GRIP' PROBES

Made for tough duty applications where metal components and surfaces need to be tested for bond integrity. These probes are molded with impact resistant polycarbonate material. Pins are hardened stainless steel and rotate when pressed onto the DUT. Wires are 8 feet long each and are terminated in color coded spade lugs. Pin center to center is 0.5 in (1.27 cm).

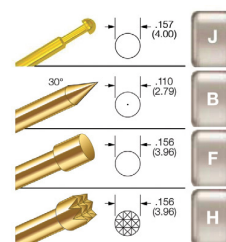

SKP-8 KELVIN PROBES

Excellent for making four-wire surface resistance measurements on films and other metallic surfaces. Features replaceable pins for heavy duty uses. The test leads are 8 feet long each and are terminated in color coded spade lugs. Pin center to center is 0.19 in (0.48 cm). Comes standard with BKP-B spear tips. A variety of probe tips are available.

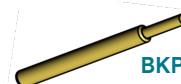

Replacement Pin Set (4) P/N BKP-J, BKP-B, BKP-F, BKP-H, BKP-K (shown right)

Model SKP-8

BKP Pin Options

BKP-K Diameter: 0.076 in (1.94mm)

ABOUT ADVANCED ENERGY

Advanced Energy (AE) has devoted more than four decades to perfecting power for its global customers. AE designs and manufactures highly engineered, precision power conversion, measurement and control solutions for mission-critical applications and processes.

Our products enable customer innovation in complex applications for a wide range of industries including semiconductor equipment, industrial, manufacturing, telecommunications, data center computing, and medical. With deep applications know-how and responsive service and support across the globe, we build collaborative partnerships to meet rapid technological developments, propel growth for our customers, and innovate the future of power.
