

EU REACH Disclosure:

219 Substances of Very High Concern Considered

Excelsys CoolX3000 Series
C3S = Standard or C3M = Medical
AC/DC Power Supplies
 200 - 240 VAC universal input, 12 slot
 modular DC output upto 3000W maximum
 All options: aux output

Issued: October 7, 2021

REACH: Registration, Evaluation, Authorization and Restriction of Chemicals
 Regulation (EC) No. 1907/2006

REACH is the European Union's chemical substances regulatory framework.

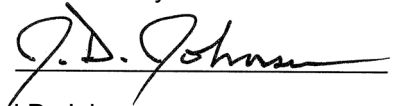

Excelsys Technologies, an Advanced Energy company, does not produce chemical substances or mixtures but does manufacture electrical and electronic equipment that might contain REACH substances in component parts of the final product.

Article 33 of REACH requires manufacturers to inform customers of Substances of Very High Concern (SVHCs) when contained in component parts of their product at concentrations above 0.1% by weight. The REACH Candidate List of SVHCs is published online by the European Chemical Agency (ECHA). Sufficient SVHC information must be provided to the customer to allow for safe use.

Based on information from component part manufacturers, suppliers, third-party databases, and review of each individual component part within this product, Excelsys, an Advanced Energy company discloses the following:

Products listed contain at least one SVHC in REACH Candidate List above concentration of 0.1%:

SVHC Name	CAS Number	Location & Safe Use
Lead	7439-92-1	SVHCs listed are in various electronic components of this product and DO NOT present hazards to humans or the environment under normal handling and use. Do not cut open or crush components.
4,4'-isopropylidenediphenol (BPA, Bisphenol A)	80-05-7	

REACH review of product conducted under the following conditions:	European Chemicals Agency (ECHA) SVHC candidate list:	July 8, 2021 publication date:	219 SVHCs
Authorized by:	Type of product manufactured, per REACH definition:	Complex article assembled from many component articles, electrical & electronic equipment	
 J.D. Johnson Environmental Compliance Manager	Subject to REACH Article 7, ECHA registration ?:	No, substances in articles < 1 tonne per year No, substances not intended to be released	
	SVHC concentration of > 0.1%, calculation method:	SVHC weight divided by weight of part containing SVHC, per European Court of Justice ruling

Product Declared Compliant: CoolX3000 Series Power Supplies

CoolX3000 configured power supply part numbering system:

Part Number = C3ajklmnpvwxzyzabcd C3 = all CoolX3000 part numbers start with 'C3'

- a = S or M CoolPac cabinet with AC input, slots for CoolMods:
S = Standard product
M = Medical product
- j, k, l, m, n, p = Unit A CoolMod plug-in DC output modules starting with Cm:
u, v, w, x, y, z = Unit B 0 = Unpopulated slot
= Unavailable slot (due to multi-slot module in neighboring slot)
- | | | | |
|---------------------------|---------|---------|---------|
| Slots j, k, l, m, n, p, | A = CmA | E = CmE | M = CmH |
| u, v, w, x, y, z = | B = CmB | F = CmF | N = CmN |
| Contain 0, #, A, B, C, D, | C = CmC | G = CmG | P = CmP |
| E, F, G, H, M, ,N, P, Q | D = CmD | H = CmH | Q = CmQ |
- b = N, P, or X N = Standard model (Unconfigured)
P = Configured
X = Internal use only
- c = A or B A = 12V Aux output (standard)
B = 5V Aux output
- d = Optional Any alphanumeric character. Logistics use only.
- g = Not used, '-', or A-Z Not used = Standard model, end of part number (h is not used)
- = Standard model with h options (- used when h is used)
A-Z = Reserved for internal use (not standard software variants)
L = Cover, not standard
- h = Optional Any alphanumeric character. Logistics use only.

Issued: October 7, 2021

Product Declared Compliant: CoolMod modules, for CoolX3000 Power Supplies

CoolX CoolMod plug-in modules part numbering system

Part Number = Cma-bcd Cm = all CoolMod part numbers start with 'Cm'

a = A - Q

Type of CoolMod module:
Standard, High power, Dual Output, or Wide Trim

'-' = Not used, '-' ,
P, C, or S

See Note below
Not used = Standard model, end of part number (bcd is not used)
'-' = Standard model with bcd options (- used when bcd is used)
P = Specific output adjustment settings
C = Conformal Coating
S = Ruggedised, including conformal coating

bcd = Optional

Any three alphanumeric characters.
Logistics use only.

Note: Use '-' to designate standard model when bcd is used. Example: CmB-X03
Not used when bcd is not used, end of part number. Example: CmB
